

KING 
EDWARD VII
ESTATE

A TASTE OF
Local Life

WELCOME TO LIVING REDEFINED
THE GUIDE

Welcome

When you choose a new home at King Edward VII Estate you are choosing a peaceful countryside retreat ideally located to take advantage of all the local area has to offer whilst remaining within easy reach of London.

As you would expect, the location teems with opportunities for country pursuits, sport and outdoor adventures. What you may not have considered however is that this unique location sits on the cusp of the counties of Hampshire, Surrey and West Sussex; this means residents of King Edward VII Estate will also enjoy easy access to places such as Chichester and the South Coast, Guildford, Haslemere and of course the City of London.

We hope you enjoy A Taste of Local Life. Of course there are far too many local attractions, shops, country parks, restaurants and leisure facilities to list them all, but we hope this guide will give you a flavour of what the area has to offer.

King Edward VII Estate is a landmark development set within 165 acres of woodland which seamlessly blends into the South Downs National Park.

Its outstanding natural beauty, walks and excellent commutability to London make King Edward VII Estate an extremely attractive residential proposition.

LIVE IN THE HEART OF THE SOUTH DOWNS NATIONAL PARK

SUPERB AMENITIES

LEISURE

King Edward VII Estate will offer all the leisure facilities required for modern day living, conveniently located right on residents' doorsteps. The luxurious basement swimming pool is for use by residents and will include changing facilities, sauna, steam-room and large circular jacuzzi. The nearby residents' basement gym will include the latest work-out and resistance equipment, while outdoors there will be a new tennis court for use by residents, in a sylvan setting adjacent to Lords Common.*

There will also be a series of well signposted Measured Walks around the glorious King Edward VII Estate grounds. These walks can be enjoyed at any time by residents and by the public on Heritage Open Days.

The development of the estate will also result in two new public footpaths, significantly increasing public access and creating nearly seven kilometres of extensive walks and trails. Scheduled open weekends will be available, allowing members of the public to enjoy the restored Grade II Registered gardens and grounds.

The estate's unique Grade II* Listed Chapel will be restored and once again take its place at the heart of the King Edward VII community, possibly acting as a café, shop and focus for meeting friends and neighbours.

The proposed shop will give residents convenient access to basic supplies while the café adds to the social scene. Residents will also have access to the communal areas of the original hospital building, including the Dining Hall which will be perfect for King Edward VII functions and of course on-site guest accommodation will also be available.*

CONVENIENCE

The King Edward VII Estate Concierge will provide residents with a seven days a week service, including holding keys for safekeeping, accepting parcels and mail as well as carrying out general maintenance and cleaning to the communal areas.

To assist commuters, there will be a station transfer service at peak times to and from nearby Haslemere mainline station - just 46 minutes to London Waterloo. (Subject to stage of development/level of demand)

Sailing

Living close to the south coast brings with it lots of new opportunities that you just don't get when you live inland. For many, sailing is something that might seem inaccessible or, at the very least, something of an unknown entity. However, with reasonable boat hire and stacks of places offering all different levels of training, sailing is something that is open to anyone and everyone.

If you are a seasoned sailor then there are plenty of places to hire a boat or, if you have your own and are looking for a permanent home for it, then there are plenty of marinas to choose from. If you have little or no experience, then why not try one of the many introductory courses for starters and then, if you get bitten by the sailing bug, you can go on to learn all the skills you need.
